

Refer a Patient

Extend the Progress. Empower FES Therapy at Home.

If you have a patient that may be a good candidate for a home FES therapy program, please refer them to MYOLYN by filling out the form on the back with your name and contact info and the patient’s diagnosis, or calling us directly. A Patient Sales Advocate will follow up with you to obtain the patient’s information.

Phone: 352-306-5661 extension 1 | **Fax:** 352-204-9588.

A Clinician’s Guide to Referring Patients for Home FES with the MyoCycle or MyoSpark

Your patients are making progress in clinic. The question is: How do we help them sustain it at home?

MyoCycle Home and MyoSpark NR were designed to bridge that gap, offering affordable, FDA-cleared FES systems that allow appropriate candidates to continue their program beyond discharge.

Why Clinicians Choose MyoCycle and MyoSpark for Home

FDA cleared for muscle re-education, reversing atrophy, reducing spasms, increasing range of motion, and more.

Lowest-cost FES systems available on the market.

Easy patient setup with a step-by-step user guide.

Ongoing clinical and technical support and assistance.

Progress tracking and community engagement.

Expands access to long-term neuro recovery.

Frequently Asked Questions

? Is MyoCycle Clinically Equivalent to Other FES Cycling Devices?

Yes, the MyoCycle is FDA cleared for the same intended use and outcomes as other FES cycling devices on the market. It supports muscular re-education, increasing local blood circulation, maintaining or increasing range of motion, preventing muscle atrophy, and relaxing muscle spasms.

? Is It Affordable for Patients?

MyoCycle is currently the lowest-cost FES cycling system on the market, making it more attainable for those who want to continue their FES program at home. MyoCycle was intentionally designed to lower financial barriers, improve accessibility post-discharge, and expand who can realistically continue therapy at home.

? What About Insurance and Reimbursement?

MyoCycle has a dedicated reimbursement team that supports benefits verification, documentation guidance, prior authorization submissions, coordination with clinicians for required medical documentation, and appeals and reconsiderations.

Help Your Patients Keep Moving Forward

Discharge should not mean discontinuation. If you have a patient who would benefit from continuing FES therapy at home, we're here to support you and them: clinically, technically, and administratively.

Let's make long-term FES access more attainable — together.
